

DistroTV Studio

FAST Channel Creation – In Your Hands

aws Available in AWS Marketplace

Build your own fully functional linear streaming channel with ad markers & EPG

Core Features

-  **HLS Adaptive Streaming**
-  **Ad Markers Scheduling**
-  **Auto EPG Creation**
-  **Flexible Content Scheduling**
-  **Custom Ad Fillers**
-  **Syndicate to any platform including Low-Latency SRT**

Why Choose DistroTV Studio

- ✓ **You're in Control** – Run in your own AWS account - scale on demand.
- ✓ **Fast, Self-Service Setup** – Go live in just a few hours. No engineers required.
- ✓ **Unlimited Syndication** – Distribute to any platform—no endpoint fees.
- ✓ **Scale on Demand** – Start with one channel, grow globally.
- ✓ **Custom Ad Fillers** – Easily configure default fillers for every ad slot.
- ✓ **Pay as You Go** – Economical-usage based pricing via AWS Marketplace.

4-Step Workflow

1.) SUBSCRIBE IN AWS

Click. Launch. Done.

Deploy DistroTV Studio & Transcoder AMLs in your own AWS environment.

2.) UPLOAD YOUR CONTENT

Works with your current media workflows.

Add your videos, poster art, and schedule TSVs to S3—auto-ingestion starts instantly.

3.) SET UP MONETIZATION

SSAI-ready, rev-share optional, no surprise fees.

Insert ad markers, plug into your ad stack—or tap into DistroTV's ad marketplace.

4.) STREAM ANYWHERE

You control where it goes. Generate your master.m3u8 + EPG feed and distribute it anywhere - Roku, FireTV, DistroTV, or your own app.

About DistroTV Studio

DistroTV Studio lets content owners launch and monetize 24/7 FAST channels directly from their own AWS account—no vendor lock-in, no hefty fees. Built by DistroTV for creators who want control, speed, and scalability.

About DistroScale

DistroScale is a leading video technology company serving thousands of media brands worldwide. Its all-in-one platform powers content delivery, curation, analytics, and monetization across web, apps, and streaming—reaching over 250 million viewers each month.
